

Series BG300

adjustable head pad dock seal

BLUE GIANT®

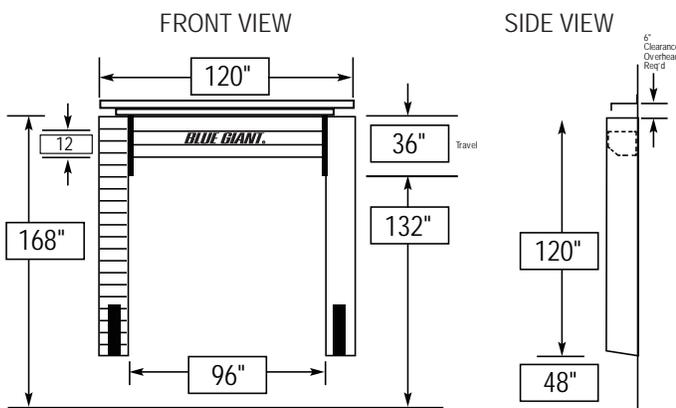

Designed for 8' wide x 10' high (2438mm x 3048mm) door openings, the BG300 series adjustable head pad dock seal is a perfect solution for higher door openings that accommodate a wide range of trailer heights.

Benefits

- SAVE hundreds of dollars in reduced energy costs
- IMPROVE working conditions by keeping dust, dirt, debris and insects out
- PROTECT product and personnel from harsh weather conditions
- INCREASE productivity by providing a safe and comfortable working environment
- DURABLE range of Hi-Performance fabrics to choose from
- CUSTOM sizes available

Standard Size Specifications

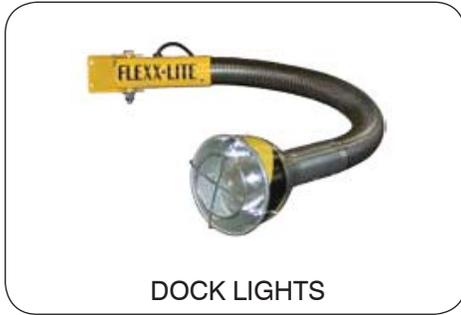

Generally designed to suit 8' wide x 10' (2438mm x 3048mm) high openings.

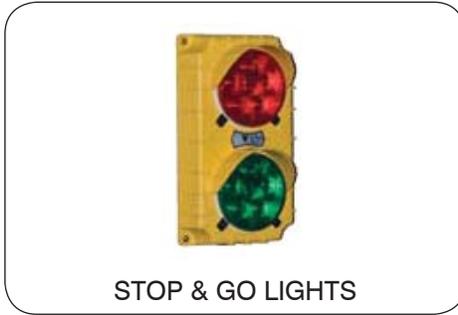

The BG300 series is used on higher door openings when a variety of trailer heights are being serviced.

Two foam side pads seal the gap between the building wall and the truck while a foam head pad that can be raised and lowered on a track and roller system creates a tight seal at the top of the truck. A torsion spring with an integral follower curtain ensures a complete seal.

Blue Giant offers a wide variety of custom products to satisfy your dock requirements.

Wear Flaps Provide Extra Protection

4" Exposure

6" Exposure

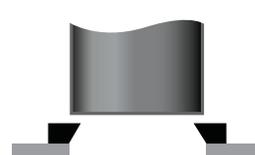

8" Exposure

To maximize long term performance of your dock seal, overlapping flaps can be applied to the full height of the side pads. The wear flaps will absorb the added abrasion that occurs at high wear areas. Wear flaps are available with 4", 6" or 8" exposure. Available in a wide range of fabrics and colours.
